Changing for the Better Probation Service Update

October 2007

PROBATION SERVICE RESOURCES ARE FINITE. AND YET, THERE IS AN EXPANSIVE VOLUME AND VARIETY OF DEMANDS ON OUR SERVICES, FROM THE COURTS, PRISONS AND OTHERS. THE CHALLENGE FOR US HAS ALWAYS BEEN HOW TO MAXIMISE OUR EFFECTIVENESS AND EFFICIENCY, WITHIN AVAILABLE RESOURCES.

Our goal is to provide the best offender assessment and supervision that we can, to the Courts and Prisons, and to prioritise what we do on the basis of how we can most improve public safety and reduce re-offending.

To achieve this goal, we realised we had to change as an organisation, but needed to clarify "what?" and "how?" Last year, we commissioned an independent audit of all our operations nationally. The present report is an update on changes made as a result of the audit findings. These changes, which are also in line with the Department of Justice, Equality & Law Reform's and Probation Service's strategy statements include:

1. Structural

Three separate directorates have been established within the Service: (i) Operations, (ii) Corporate Services & Human Resources, (iii) Research, Training & Development.

- Each Directorate is headed by a Deputy Director.
 Young Persons Probation, (National) under an Assistant Director.
- An Assistant Director responsible for Community Service and Projects Strategic Management.
- Regional Manager (National) assigned responsibility for all our services to prisoners and adult offender (funded) accommodation, as well as high risk offenders.
- Five geographical regions, (each under a Regional Manager) for adult offenders referred by the Courts.
 These each comprise a number of counties and their coverage is based on population, crime levels and numbers of referrals to the Service.
- Team boundaries have been redrawn by reference to county administration boundaries.

2. Practice & Procedures

- Established dedicated offender assessment teams in Limerick, Cork and Dublin.
- Re-prioritise allocation of Service resources on the basis of assessment of risk (of re-offending or of harm).

3. Consolidation

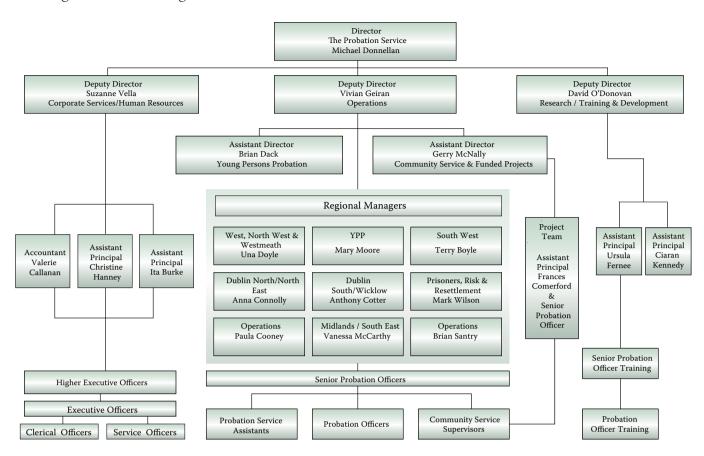

- Strengthening existing initiatives such as work with the (Dublin) Drug Treatment Court and Homeless Offenders teams.
- Establishment of enhanced Court liaison structures, including dedicated Service personnel for this purpose.

The changes outlined will enable us to provide greater clarity, as well as efficiency, in our service provision to the Courts, Prisons and others. What we do will also be more firmly linked to our legislative and policy mandate and our strategic objectives as an agency of the Department of Justice, Equality & Law Reform. Failure to make changes as described would lead to stagnation, inefficiency and poorer outcomes for Courts, Prisons, communities and offenders and their families.

Milae se amula

Michael Donnellan

Director

Update on changes in the Probation Service

One of the strategic objectives for the Department of Justice, Equality and Law Reform in its 2005-2007 Strategy Statement was to further advance the structural and service reforms of an Garda Síochána, Courts, Prisons and Probation Service to enable those agencies implement their mandates in the most effective and efficient way possible.

It is in this context that the Probation Service, in consultation with the Department embarked on a major change process as outlined in the launch of its 2006-2007 Strategy Statement 'Supporting and Delivering Change'.

As part of the change process the Service commissioned an audit of its services nationally, to collate information to assist and inform the Service's restructuring and redeployment of resources. The audit report was published in January, 2007 and made a number of recommendations towards improving service delivery. Amongst these were:

- · the reorganisation of Service regions
- · the alignment of teams on a county basis
- the delivery of more efficient services to the Courts and Prisons.

The following is an outline of the main elements of the Service Restructuring currently being implemented. These changes are designed to enhance effective service delivery to all stakeholders and to facilitate greater equity and efficiency in the distribution of resources at both regional and team level.

- Existing regions are being realigned 7 New Operational Regions are established as follows;
- 1. Dublin North / North East
- 2. Dublin South / Wicklow
- 3. South West
- 4. Midlands/South East
- 5. West, North West & Westmeath
- 6. Prisoners, Risk and Resettlement Region (National)
- 7. Young Persons Probation (National)
- Each region is managed by a Regional Manager reporting to the Director of Operations.
- Individual teams now cover geographical areas within county boundaries in most instances.
- New teams are established in Counties Kildare (Newbridge), Wicklow (Bray) and Cavan/Monaghan/ Leitrim.

Regional Map

Update on changes in the Probation Service continued

- Dedicated **Assessment Teams** are established in Dublin, Cork and Limerick. Their function is the preparation of Pre-Sanction Reports, (PSR) and Community Service Reports, (CSR) for the Central, Circuit and District Courts on all new adult referrals (of offenders not currently on supervision). This will improve the quality of service to the Courts.
- There are **two assessment teams in Dublin based** in Smithfield, covering the North and South sides of the city. These teams take referrals on offenders with addresses in Dublin County i.e. in the four local authorities administrative areas: Fingal, Dun Laogharie/Rathdown, South Dublin and Dublin City.
- There is **one assessment team in Cork** taking referrals from all of Cork city and county.
- There is **one assessment team in Limerick** taking referrals from the greater Limerick city area.
- Offender Supervision resulting from the assessment teams
 cases will transfer to Community Supervision teams.
 Prioritisation of supervision will be on the basis of risk
 as identified through application by Probation Officers of
 appropriate risk assessment instruments and any other
 measure as deemed appropriate, with higher risk offenders
 receiving supervision priority and lower risk cases
 receiving commensurate levels of contact.
- A Courts Liaison Team is established, based in Smithfield, to facilitate enhanced communication between the two services.
- As part of the multi-disciplinary response currently in place, a dedicated service will continue to be provided to the **Dublin Drug Treatment Court**.
- All referrals in relation to homeless offenders in Dublin and referrals on those remanded in custody to Cloverhill Prison will be prepared by a dedicated team, incorporating the Homeless Offenders Team based in Smithfield. The establishment of this team is guided by the Government National Strategy on homelessness.
- A **National Prisons Region** (covering probation work in all Prisons) is now established to facilitate greater equity in services to prisoners nationally with one Regional Manager heading this division.
- An Assistant Director, heading a small project team
 within the Operations Directorate, has been assigned
 responsibility for strategic management and development
 of Community Service and funded offender projects and
 programmes.
- In responding to the Government's initiative on Youth
 Justice and Child Protection (April 2007), a specialist
 team addressing the supervision and management of
 sex offenders and other high risk offenders is now
 established based in Smithfield, Dublin. This team
 will provide both a Service resource and a dedicated

- contact point within the Service. It will also have a developmental role in relation to the introduction of more formalised risk assessment and risk management for these offender groups. In particular, an all-island approach to sex offender risk assessment is being developed in collaboration with the Probation Board for Northern Ireland (PBNI), as well as the Garda Síochána.
- As part of the Government's commitments as articulated by the Office of the Minister for Children and the Irish Youth Justice Service, the Young Persons Probation (YPP National) is established as a specialised division within the Probation Service. This division will work with children and young people aged 12 to 18 who come before the Courts or who are in Children Detention Schools.
- The YPP teams will implement the relevant sections of the Children Act 2001 as directed by the Courts, in particular family conferencing, parenting orders and the various supervised community sanctions.
- In Dublin and Cork, specialised Court Liaison teams are established to provide a service to the Juvenile Courts.
- There are **dedicated YPP community teams** in Dublin, Cork Waterford, Limerick, Sligo and Drogheda.
- There are two specialist YPP teams addressing intensive supervision being established in Dublin and Cork with similar developments to follow in Limerick.
- The Service is currently developing and enhancing links with other jurisdictions particularly Northern Ireland and Britain, for improved management of offenders who move between jurisdictions.
- The Services I.T. based **Case Tracking System** is being updated to facilitate improved service delivery.
- Specialised and targeted **training** for Probation staff is being delivered in support of the initiatives outlined, (e.g. various types of offender assessment).
- An independent nationwide review of Community Service practices is currently underway.
- The development of Service policies and procedures for the effective governance and management of **Department of Justice funded projects** (e.g. community based programmes for alcohol and drugs) focusing on enhanced efficiency is ongoing. This has involved the development, in partnership with projects, of improved funding, management, assessment, reporting and evaluation structures.
- Where offenders on Probation Supervision or Community Service fail to co-operate, measures and procedures to have them returned to Court are being strengthened.

Further details of the above initiatives, as well as on other developments in our reorganisation, will be made available, as and when appropriate.

Regional Managers (Operations) - Contact Details

DUBLIN NORTH / NORTH EAST This area covers all the North side of Dublin as well as counties Louth and Meath. In Dublin there are four community supervision teams, one assessment team (preparing all new Pre-Sanction and Community Service reports) and an Intensive Probation (Bridge) team. In Louth and Meath there are two generic teams covering all cases in the counties.	Anna Connolly	The Probation Service, 2nd Floor Office Block, Don- aghmede Shopping Centre, Grange Road, Donaghmede, Dublin 13.	Tel. No. 01 -8166800 amconnolly@ probation.ie
